Calvin, Giordano & Associates is providing the following services:

- Construction of roadway improvements, including construction of sanitary sewer collection system with gravity sewer lines, manholes, WASD lift station and force main
- Paving, grading, and drainage improvements
- Under grounding of certain utilities, such as FPL power, CATV, and telephone
- The installation of a new water main with services proposed by the City of North Miami Beach
- Civil plan reviews for quality control
- Permit applications and certifications
- Assist in bidding process, including pre-bid, bid opening, recommendation of award and contract execution
- Meeting with Contractor and appropriate regulatory agencies when requested and necessary for consultation or conferences in regard to construction of the project
- Issue interpretations and clarifications of the Contract Documents, and evaluate requested deviations from the approved design or specifications. In connection therewith, review, prepare and process any work change directives or change orders requested by the Contractor, or City
- Review and process shop drawings, samples and other data which the Contractor is required to submit
- Make daily inspections for compliance with plans and specifications. Make interim inspections for substantial completion; review, approve and process pay requests and perform a final inspection to determine, in general, if the work has been completed in conformance with the intent of the Contract Documents
- Review as-built provided by the Contractor
- Review and process closeout packages
