

Memorial Hospital Miramar, Florida

Project

For impacts to 79 acres of wetlands to develop the hospital complex; the creation and enhancement of 50+ acres of on-site wetlands was required. CGA conducted the day-to-day scheduling, coordination and oversight of the mitigation area plant installation contractor to ensure adherence to the project specifications and bid form documents. CGA also review of pay application requests of the mitigation area plant installation contractor.

CGA reviewed the As-built surveys of the constructed mitigation area for compliance to the issued permits, and is conducting the five year regulatory compliance monitoring.
